IoT Connectivity as a Service - Legacy West Ventures

Turnkey LTE networking for smart buildings, industrial sites, and indoor agriculture.

Pre-configured gateways, secure setup, and ongoing management - ideal for teams without dedicated IT.

Plans & Pricing

Plan	Monthly (per line)	Included	Best for
Basic Connectivity	**$30**	2 GB LTE (then network may throttle to 256 kbps)	Simple single-line links, backup WAN
Static IP	**$40**	Everything in Basic **+ dedicated static IP**	Remote access to direct device access
Managed	**$45**	Everything in Basic **+ support up to 10 local devices**	Small network local branch sites, inbound

Setup fee: $65 per modem/line. **Hardware priced separately.** Shipping & taxes not included.

Add-ons: additional local devices (beyond 10) supported with fee.

Hardware Options

Commercial Grade (typical $200-$275 hardware)

- 4G LTE Cat 4 (up to 150 Mbps down); **dual SIM** with automatic failover
- **2× Ethernet (WAN/LAN)**; **Wi-Fi 4 AP/client** (≈50 clients)
- Compact **aluminum IP30** housing; −**40 °C to +75 °C** operating range
- Perfect for: **smart buildings, retail, offices**

Advanced Rugged (typical $300-$350 hardware)

- 4G LTE Cat 4 with **dual SIM + optional eSIM**
- **4× Ethernet + RS-232/485**, **GNSS** (GPS/GLONASS/BeiDou/Galileo), geofencing
- Wi-Fi for ≈100 clients; rich **DI/DO/AI with relay**, **USB 2.0 + microSD**
- **Hazardous location** certified (Class I, Div 2)
- Perfect for: **industrial, agriculture, harsh environments**

*LWV sizes the **enterprise-grade LTE IoT gateway** to your project's environment and carrier needs.*

Who We Serve

- **Smart Buildings:** Lighting, HVAC, access and energy systems - always online.
- **Indoor Agriculture:** Greenhouses, irrigation, climate control and sensors.
- **Industrial IoT:** Equipment telemetry, remote monitoring and controls.

What You Get

- **Zero-touch deployment:** Ship-to-site gateways, pre-configured for your network & APN
- **Resilient connectivity:** Dual-SIM failover; optional static IP; fallback support
- **Secure by default:** Locked-down management, firewalling, VPN-ready
- **Proactive ops:** Offline alerts, managed inbound/outbound access (Managed plan)
- **Lifecycle support:** Remote monitoring, updates, and templates via LWV

FAQs

Do I need an IT team? No - LWV preconfigures your gateway and provides ongoing support.

Which hardware do I get? An enterprise-grade LTE IoT gateway sized for your project. Model details shared post-order.

What are the terms? Minimum 1-year term; setup fee per line; optional static IP & remote management.
